

Anisa Karimi

Data Scientist

Tehran, Iran | anisa.karimi@example.com | +98 21 0000 0002 | linkedin.com/in/anisa-karimi | github.com/anisa-karimi | anisa-karimi.dev

PROFILE

Detail-oriented Data Scientist with a background in statistical analysis and machine learning. Skilled at transforming complex data into actionable insights to drive business decision-making.

SKILLS

Languages: Python, R, SQL

Frameworks: TensorFlow, Scikit-Learn, Pandas

Cloud and tools: Azure ML, AWS S3, Google BigQuery

Databases: PostgreSQL, SQLite

Practices: Data Visualization, Predictive Modeling, Statistical Analysis

EXPERIENCE

Data Analyst, Data Innovations

Apr 2019 - Present

Tehran, Iran

- Analyzed large datasets to uncover trends and patterns, contributing to a 25% increase in operational efficiency.
- Developed and deployed machine learning models to predict customer behavior, resulting in a 15% boost in retention rates.
- Presented findings to stakeholders using data visualization tools to facilitate decision-making.

Technologies: Python, Tableau, PostgreSQL

Junior Data Scientist, Tech Analytics

Jan 2017 - Mar 2019

Tehran, Iran

- Assisted in building predictive models using Scikit-Learn, improving accuracy by 20%.
- Collaborated with cross-functional teams to understand data requirements and deliver insights.
- Conducted A/B testing to evaluate marketing strategies, informing future campaigns.

Technologies: R, SQL, Pandas

PROJECTS

Customer Segmentation Project

Led a project to identify customer segments through clustering analysis, enhancing targeted marketing strategies and increasing sales. Technologies: Python, K-Means, SQL.

Sales Forecast Model

Developed a forecasting model that improved sales predictions by 30% using time series analysis. Technologies: R, Forecasting, Tableau.

EDUCATION AND CERTIFICATIONS

MSc Data Science, University of Tehran (2019) - Thesis on predictive analytics in retail.

Certifications: Certified Data Scientist
