

Liam O'Neill

DevOps Engineer

Dublin, Ireland | liam.oneill@example.com | +353 800 000 004 | linkedin.com/in/liam-oneill | github.com/liam-oneill | liam-oneill.dev

PROFILE

Dedicated DevOps Engineer with over 5 years of experience in automating deployment processes and improving system reliability. Strong advocate for continuous integration and delivery.

SKILLS

Languages: Python, Go, Shell

Frameworks: Docker, Kubernetes, Jenkins

Cloud and tools: AWS, Azure, GCP

Databases: MySQL, MongoDB

Practices: Continuous delivery, Site reliability engineering, Agile practices

EXPERIENCE

DevOps Engineer, Innovative Tech Solutions

Jul 2020 - Present

Dublin, Ireland

- Streamlined CI/CD pipelines, reducing deployment time by 60%.
- Implemented monitoring solutions that improved system uptime by 30%.
- Collaborated with development teams to enhance application performance and reliability.

Technologies: Docker, AWS, MySQL

Junior DevOps Engineer, NextGen Systems

Feb 2018 - Jun 2020

Cork, Ireland

- Assisted in the migration of applications to a cloud environment, achieving a 40% reduction in operational costs.
- Automated system backups, increasing data recovery speed by 50%.
- Participated in troubleshooting and resolving system outages effectively.

Technologies: Kubernetes, Python, MongoDB

PROJECTS

Cloud Infrastructure Optimization

Redesigned cloud infrastructure to enhance performance, resulting in a 20% decrease in latency. Technologies: AWS, Docker.

Automated Deployment System

Developed an automated deployment system that improved release cycles and minimized human error. Technologies: Jenkins, Kubernetes.

EDUCATION AND CERTIFICATIONS

MSc Computer Science, Trinity College Dublin (2017) - Thesis on cloud computing solutions.

Certifications: Certified Kubernetes Administrator
