

Khalid Al-Mansoori

Cloud Platform Engineer

Dubai, UAE | khalid.almansoori@example.com | +971 50 123 4567 | linkedin.com/in/khalid-al-mansoori | github.com/khalid-al-mansoori | khalidalmansoori.dev

PROFILE

Experienced Cloud Platform Engineer with a robust background in deploying scalable cloud solutions. Proficient in modern DevOps practices and cloud technologies, I focus on optimizing performance and driving efficiencies. Committed to automating processes and improving system reliability.

SKILLS

Languages: Python, Java, Ruby

Frameworks: Spring, Django, Flask

Cloud and tools: AWS, Azure, Kubernetes

Databases: MySQL, MongoDB

Practices: Agile methodologies, Infrastructure as Code, Continuous Integration

EXPERIENCE

Cloud Engineer, Cloud Innovations Inc.

Jan 2021 - Present

Dubai, UAE

- Designed and implemented a cost-effective multi-cloud architecture using AWS and Azure.
- Automated deployment processes using Terraform, reducing deployment times by 40%.
- Led migration projects from on-premise to cloud infrastructure, improving uptime by 99%.

Technologies: AWS, Terraform, Docker

DevOps Engineer, Tech Solutions Co.

Jun 2019 - Dec 2020

Dubai, UAE

- Developed CI/CD pipelines using Jenkins and GitLab CI for multiple applications.
- Implemented container orchestration using Kubernetes, enhancing application scalability.
- Collaborated with development teams to streamline code deployment processes.

Technologies: Jenkins, Kubernetes, GitLab

PROJECTS

Automated Scaling Solution

Developed a solution that automatically adjusts resource allocation based on traffic patterns, resulting in a 30% cost reduction during off-peak hours. Technologies: AWS Lambda, Python, CloudWatch.

Multi-Cloud Migration

Led a team in migrating services from on-premises to a multi-cloud setup, ensuring zero downtime and seamless transition. Technologies: Terraform, AWS, Azure.

EDUCATION AND CERTIFICATIONS

BSc Information Technology, University of Dubai (2018)

Certifications: AWS Certified Solutions Architect - Professional
