

Amina Khoury

DevOps Engineer

Dubai, UAE | amina.khoury@example.com | +971 50 000 0000 | linkedin.com/in/amina-khoury | github.com/amina-khoury | aminakhoury.dev

PROFILE

Proficient DevOps Engineer with over 5 years of experience in automating deployment processes and optimizing CI/CD pipelines. Strong background in cloud services and infrastructure management, aiming to enhance operational efficiency.

SKILLS

Languages: Go, Python, Shell

Frameworks: Kubernetes, Docker, Ansible

Cloud and tools: AWS, Azure, GCP

Databases: MySQL, Redis

Practices: Infrastructure as Code, Continuous delivery, Monitoring and logging

EXPERIENCE

DevOps Engineer, CloudOps Solutions

Jul 2020 - Present

Dubai, UAE

- Streamlined the deployment pipeline, reducing deployment times by 50% through automation.
- Implemented monitoring solutions using Prometheus and Grafana, enhancing system reliability.
- Collaborated with developers to improve application performance and scalability.

Technologies: Docker, AWS, MySQL

Site Reliability Engineer, TechWave LLC

May 2017 - Jun 2020

Abu Dhabi, UAE

- Managed cloud infrastructure across multiple platforms, ensuring high availability and performance.
- Developed scripts for automation of system maintenance tasks, improving operational efficiency by 30%.
- Provided 24/7 support for critical system components.

Technologies: GCP, Kubernetes, Redis

PROJECTS

CI/CD Pipeline Automation

Built a fully automated CI/CD pipeline that improved deployment frequency and reduced errors. Technologies: Jenkins, Docker.

Monitoring Dashboard

Created a comprehensive monitoring dashboard that aggregates metrics for real-time system health tracking. Technologies: Grafana, Prometheus.

EDUCATION AND CERTIFICATIONS

BSc Computer Engineering, American University of Sharjah (2017) - Focus on software engineering and cloud technologies.

Certifications: AWS Certified DevOps Engineer - Professional
