

Luca Moretti

Mobile Application Developer

Rome, Italy | luca.moretti@example.com | +39 06 12345678 | linkedin.com/in/luca-moretti | github.com/luca-moretti | lucamoretti.dev

PROFILE

Creative Mobile Application Developer with a strong passion for building engaging and user-friendly mobile applications. Experienced in both Android and iOS development, I aim to create seamless user experiences while adhering to best practices.

SKILLS

Languages: Swift, Kotlin, JavaScript

Frameworks: React Native, Flutter, Xcode

Cloud and tools: Firebase, AWS, Azure

Databases: SQLite, Realm

Practices: Agile development, Test-driven development, User-centered design

EXPERIENCE

Mobile Developer, Mobile Innovations SRL

Sep 2019 - Present

Rome, Italy

- Developed and deployed mobile applications on both iOS and Android platforms.
- Implemented features based on user feedback, improving app ratings by 4.5 stars on app stores.
- Collaborated with design teams to ensure a cohesive and intuitive user experience.

Technologies: Swift, Kotlin, Firebase

Junior Mobile Developer, App Creators Group

May 2017 - Aug 2019

Rome, Italy

- Assisted in the development of a popular social media application with over 100k downloads.
- Participated in code reviews and contributed to the design discussions.
- Wrote unit tests to ensure high-quality code and minimize bugs.

Technologies: JavaScript, React Native, SQLite

PROJECTS

Fitness Tracker App

Created a fitness tracker application that integrates with wearable devices and offers personalized recommendations based on user activity data. Technologies: Flutter, Firebase, Dart.

Social Media App

Developed a social media application allowing users to share content and connect, achieving over 150k downloads within the first few months. Technologies: React Native, SQLite, AWS.

EDUCATION AND CERTIFICATIONS

BSc Software Engineering, University of Rome (2018)

Certifications: Google Associate Android Developer
