

Dmitri Volkov

Cloud Solutions Architect

Moscow, Russia | dmitri.volkov@example.com | +7 900 000 0000 | linkedin.com/in/dmitri-volkov | github.com/dmitri-volkov | dmitrivolkov.dev

PROFILE

Detail-oriented cloud solutions architect with over 7 years of experience designing and implementing cloud infrastructure. Proven ability to optimize system performances and enhance security across cloud platforms.

SKILLS

Languages: Java, Python, Go
Frameworks: Spring Boot, Flask, Kubernetes
Cloud and tools: AWS, Azure, GCP
Databases: Cassandra, MariaDB
Practices: DevOps, Infrastructure as Code, Continuous Integration

EXPERIENCE

Cloud Architect, CloudTech Solutions

Jun 2019 - Present

Moscow, Russia

- Architected cloud infrastructure for a global e-commerce platform, reducing operational costs by 30%.
- Led a team to implement Kubernetes for container orchestration, improving deployment speed by 50%.
- Enhanced security protocols, achieving compliance with international data regulations.

Technologies: AWS, Kubernetes, Cassandra

Systems Engineer, Innovatech

Jan 2016 - May 2019

Moscow, Russia

- Designed and deployed cloud-based solutions, increasing system reliability by 40%.
- Implemented monitoring solutions that provided real-time insights into system performance.
- Collaborated with development teams to ensure seamless integration of new features.

Technologies: Azure, Java, MariaDB

PROJECTS

Disaster Recovery Plan

Developed a robust disaster recovery plan for a financial institution, ensuring data integrity and availability during outages.

Technologies: AWS, Terraform.

Microservices Migration

Led the migration of a monolithic application to a microservices architecture, enhancing scalability and maintainability.

Technologies: Docker, Kubernetes.

EDUCATION AND CERTIFICATIONS

BSc Computer Engineering, Moscow Institute of Physics and Technology (2015) - Specialized in Cloud Computing

Certifications: AWS Certified Solutions Architect – Professional
