

Kiran Patel

DevOps Engineer

Bengaluru, India | kiran.patel@example.com | +91 7000 0003 | linkedin.com/in/kiran-patel | github.com/kiran-patel | kiran-patel.dev

PROFILE

Dynamic DevOps Engineer with over 6 years of experience in automating and optimizing deployment pipelines. Strong expertise in cloud services and infrastructure management, dedicated to enhancing system reliability and efficiency.

SKILLS

Languages: Bash, Python, Go

Frameworks: Ansible, Terraform, Docker

Cloud and tools: AWS, Azure, GCP

Databases: MySQL, PostgreSQL

Practices: Continuous Integration, Infrastructure as Code, Monitoring and Logging

EXPERIENCE

Lead DevOps Engineer, Cloud Solutions Corp.

Mar 2020 - Present

Bengaluru, India

- Spearheaded the migration of on-premises applications to AWS, reducing operational costs by 35%.
- Implemented CI/CD pipelines using Jenkins, improving deployment frequency by 50%.
- Optimized cloud infrastructure, achieving a 40% reduction in resource consumption.

Technologies: AWS, Terraform, Docker

DevOps Engineer, Innovative Tech Solutions

Jan 2017 - Feb 2020

Hyderabad, India

- Automated deployment processes for microservices applications, decreasing deployment time by 60%.
- Collaborated with developers to enhance system performance monitoring and error tracking.
- Developed scripts for server configuration management, ensuring consistency across environments.

Technologies: Ansible, Bash, AWS

PROJECTS

Automated CI/CD Pipeline

Designed and implemented a fully automated CI/CD pipeline using Jenkins and Docker, resulting in faster delivery of software updates. Technologies: Jenkins, Docker.

Infrastructure Monitoring Tool

Created a monitoring tool that provides real-time insights into server performance and uptime, improving incident response times. Technologies: Python, Grafana.

EDUCATION AND CERTIFICATIONS

BEng Computer Engineering, Fictional University of Engineering (2016)

Certifications: Certified Kubernetes Administrator
