

Jasper van der Meer

DevOps Engineer

Amsterdam, Netherlands | jasper.vandermeer@example.com | +31 600 000 000 | linkedin.com/in/jasper-van-der-meer | github.com/jasper-vandermeer | jaspervandermeer.dev

PROFILE

Results-driven DevOps engineer with over 6 years of experience in automation, continuous integration, and system reliability. Committed to enhancing development workflows and optimizing infrastructure.

SKILLS

Languages: Bash, Python, Go
Frameworks: Ansible, Terraform, Jenkins
Cloud and tools: AWS, GCP, Azure
Databases: MySQL, PostgreSQL
Practices: Continuous Delivery, Infrastructure as Code, Monitoring

EXPERIENCE

Senior DevOps Engineer, CloudOps Solutions

Sep 2020 - Present

Amsterdam, Netherlands

- Automated infrastructure provisioning with Terraform, reducing setup time by 60%.
- Implemented CI/CD pipelines using Jenkins, enhancing deployment frequency by 50%.
- Managed cloud infrastructure on AWS, ensuring high availability and performance.

Technologies: Terraform, Jenkins, AWS

DevOps Engineer, TechWave

May 2017 - Aug 2020

Amsterdam, Netherlands

- Developed monitoring solutions that improved application uptime by 40%.
- Contributed to the migration of legacy systems to cloud environments, optimizing resource usage.
- Collaborated with development teams to streamline workflows and enhance collaboration.

Technologies: Ansible, GCP, MySQL

PROJECTS

Infrastructure as Code Implementation

Led the implementation of Infrastructure as Code practices, improving infrastructure management and scalability.
Technologies: Terraform, Ansible.

Monitoring and Alerting System

Developed a robust monitoring system that provided real-time alerts and insights, enhancing operational efficiency.
Technologies: Prometheus, Grafana.

EDUCATION AND CERTIFICATIONS

BSc Computer Science, University of Amsterdam (2016) - Focus on Cloud Computing

Certifications: Certified Kubernetes Administrator (CKA)
