

Mikhail Orlov

DevOps Engineer

Moscow, Russia | mikhail.orlov@example.com | +7 495 123-45-67 | linkedin.com/in/mikhail-orlov | github.com/mikhail-orlov | mikhailorlov.dev

PROFILE

Experienced DevOps Engineer with 6+ years of experience in automating deployment processes and managing cloud infrastructure. Committed to enhancing system performance and reliability through effective CI/CD practices.

SKILLS

Languages: Bash, Python, Go

Frameworks: Kubernetes, Docker, Ansible

Cloud and tools: AWS, Azure, Terraform

Databases: MySQL, Cassandra

Practices: CI/CD, Infrastructure as Code, Monitoring and alerting

EXPERIENCE

DevOps Engineer, Cloud Solutions Inc.

Mar 2020 - Present

Moscow, Russia

- Led the migration of legacy systems to AWS, resulting in a 40% reduction in infrastructure costs.
- Implemented CI/CD pipelines using Jenkins, speeding up deployment cycles by 50%.
- Created Terraform scripts to manage infrastructure as code, increasing deployment consistency.

Technologies: AWS, Docker, Terraform

System Administrator, Tech Dynamics

Jun 2017 - Feb 2020

Moscow, Russia

- Managed and optimized server performance, improving uptime to 99.9%.
- Automated routine tasks using Bash scripts, increasing operational efficiency.
- Provided support for development teams, ensuring seamless integration of systems.

Technologies: Linux, MySQL, Nagios

PROJECTS

Infrastructure Automation

Led a project to automate cloud infrastructure provisioning, reducing setup time from days to minutes. Technologies: Terraform, AWS.

Monitoring System Implementation

Developed a monitoring solution that tracks system performance, reducing downtime by 30%. Technologies: Prometheus, Grafana.

EDUCATION AND CERTIFICATIONS

BSc Information Technology, Moscow Institute of Technology (2017) - Specialized in cloud computing

Certifications: AWS Certified DevOps Engineer - Professional
