

Hannah Sweeney

DevOps Engineer

Dublin, Ireland | hannah.sweeney@example.com | +353 1 000 0000 | linkedin.com/in/hannah-sweeney | github.com/hannah-sweeney | hannahsweeney.dev

PROFILE

Dedicated DevOps Engineer with 5 years of experience in automating deployment pipelines and improving system reliability. Expertise in cloud technologies and CI/CD practices.

SKILLS

Languages: Bash, Python, Go

Frameworks: Ansible, Terraform, Kubernetes

Cloud and tools: AWS, GCP, Azure

Databases: Cassandra, PostgreSQL

Practices: Infrastructure as Code, Continuous Integration, Monitoring and Logging

EXPERIENCE

DevOps Engineer, Cloud Solutions Inc.

Mar 2021 - Present

Dublin, Ireland

- Implemented automated CI/CD pipelines, reducing deployment time by 50%.
- Managed cloud infrastructure on AWS, ensuring 99.9% uptime.
- Designed monitoring solutions that decreased incident response time by 30%.

Technologies: AWS, Terraform, Ansible

Junior DevOps Engineer, Software Dynamics

May 2018 - Feb 2021

Dublin, Ireland

- Assisted in setting up Docker containers for application deployment.
- Collaborated with development teams to streamline the software development lifecycle.
- Conducted infrastructure audits to ensure compliance with security policies.

Technologies: Docker, Kubernetes, Bash

PROJECTS

Automated Deployment System

Created an automated deployment system that streamlined application release processes, reducing manual errors and increasing deployment frequency. Technologies: Ansible, AWS, Docker.

Monitoring Dashboard

Developed a centralized monitoring dashboard that aggregated logs and metrics, improving visibility and troubleshooting capabilities across services. Technologies: Grafana, Prometheus, Python.

EDUCATION AND CERTIFICATIONS

BSc in Information Technology, University College Dublin (2017) - Emphasis on cloud computing and systems administration.

Certifications: AWS Certified DevOps Engineer - Professional
