

Akira Yamamoto

Cloud Solutions Architect

Tokyo, Japan | akira.yamamoto@example.com | +81 3-0000-0000 | linkedin.com/in/akira-yamamoto | github.com/akira-yamamoto | akirayamamoto.dev

PROFILE

Experienced Cloud Solutions Architect with over 6 years of expertise in designing and implementing scalable cloud infrastructures. Strong background in cloud security and application migration.

SKILLS

Languages: Python, Java, Go

Frameworks: Spring, Flask, Django

Cloud and tools: AWS, Azure, GCP

Databases: MySQL, PostgreSQL

Practices: Cloud migration, Infrastructure as Code, Security best practices

EXPERIENCE

Cloud Solutions Architect, Cloud Tech Corp

May 2021 - Present

Tokyo, Japan

- Designed and implemented multi-cloud strategies to enhance system resilience.
- Advised on cloud security best practices, resulting in a 40% reduction in security incidents.
- Led application migration projects from on-premise to cloud environments.

Technologies: AWS, Terraform, Python

Cloud Engineer, Global IT Solutions

Feb 2017 - Apr 2021

Tokyo, Japan

- Developed and maintained cloud infrastructure for various client applications.
- Automated deployment processes using CI/CD tools, improving release cycles.
- Collaborated with development teams to optimize application performance on cloud.

Technologies: Azure, Docker, Kubernetes

PROJECTS

Multi-Cloud Infrastructure

Architected a multi-cloud infrastructure that improved application uptime and flexibility, enabling a seamless user experience across global regions. Technologies: AWS, GCP, Terraform.

Cloud Security Framework

Developed a comprehensive cloud security framework that reduced vulnerabilities and ensured compliance with industry standards. Technologies: Python, AWS, Terraform.

EDUCATION AND CERTIFICATIONS

MSc in Cloud Computing, Tokyo Institute of Technology (2016) - Specialization in cloud security and systems architecture.

Certifications: AWS Certified Solutions Architect - Professional
