

Anouk De Vries

DevOps Engineer

Amsterdam, Netherlands | anouk.devries@example.com | +31 20 1234567 | linkedin.com/in/anouk-devries | github.com/anouk-devries | anoukdevries.dev

PROFILE

Detail-oriented DevOps Engineer with extensive experience in CI/CD, infrastructure automation, and system monitoring. Committed to improving operational efficiency through innovative solutions.

SKILLS

Languages: Bash, Python, Go

Frameworks: Kubernetes, Docker, Ansible

Cloud and tools: AWS, Google Cloud, Azure

Databases: Cassandra, PostgreSQL

Practices: Infrastructure as Code, Continuous Deployment, Monitoring and Logging

EXPERIENCE

Senior DevOps Engineer, Cloud Solutions Inc.

Jan 2021 - Present

Amsterdam, Netherlands

- Streamlined deployment processes, achieving a 60% reduction in deployment times.
- Implemented Kubernetes clusters for microservices architecture, improving system scalability.
- Automated infrastructure provisioning using Terraform, enhancing the consistency and reliability of deployments.

Technologies: Kubernetes, AWS, Terraform

DevOps Engineer, Innovatech Systems

May 2019 - Dec 2020

Rotterdam, Netherlands

- Developed CI/CD pipelines with Jenkins, increasing deployment frequency by 40%.
- Monitored system performance and optimized resource allocation, reducing costs by 20%.
- Collaborated with development teams to resolve deployment issues and improve workflow.

Technologies: Docker, Jenkins, PostgreSQL

PROJECTS

Infrastructure Automation Project

Led a project to automate the infrastructure setup for multiple applications, resulting in faster project delivery and reduced manual errors. Technologies: Terraform, AWS.

Monitoring System Implementation

Developed a comprehensive monitoring solution using Prometheus and Grafana, improving incident response times. Technologies: Prometheus, Grafana.

EDUCATION AND CERTIFICATIONS

BSc Computer Engineering, Delft University of Technology (2019) - Focus on cloud computing and networking

Certifications: Certified Kubernetes Administrator (CKA)
