

Maya Kowalski

DevOps Engineer

Warsaw, Poland | maya.kowalski@example.com | +48 22 123 4567 | linkedin.com/in/maya-kowalski | github.com/maya-kowalski | maya-kowalski.dev

PROFILE

Dedicated DevOps Engineer with over 4 years of experience in automating and optimizing deployment processes. Skilled in infrastructure as code and continuous integration within cloud environments.

SKILLS

Languages: Bash, Python, Groovy

Frameworks: Jenkins, Docker, Kubernetes

Cloud and tools: AWS, Azure DevOps, Terraform

Databases: PostgreSQL, Cassandra

Practices: Continuous delivery, Infrastructure as code, Monitoring and logging

EXPERIENCE

DevOps Engineer, CloudOps Solutions

May 2021 - Present

Warsaw, Poland

- Automated deployment pipelines using Jenkins and Docker, reducing deployment time by 50%.
- Implemented monitoring solutions using Grafana and Prometheus to enhance system reliability.
- Designed and maintained infrastructure as code with Terraform for scalable environments.

Technologies: AWS, Docker, Jenkins

Junior DevOps Engineer, Techwave Studio

Jul 2018 - Apr 2021

Warsaw, Poland

- Assisted in the migration of legacy systems to cloud infrastructure, ensuring minimal downtime.
- Managed CI/CD workflows to improve software delivery cycles.
- Collaborated with development teams to enforce best practices in software deployment.

Technologies: Kubernetes, Bash, AWS

PROJECTS

Automated Deployment System

Developed a fully automated deployment system that decreased deployment errors by 70% and improved team productivity.

Technologies: Jenkins, Docker, AWS.

Cloud Migration Project

Led a project to migrate on-premises applications to the cloud, successfully reducing operational costs by 30%. *Technologies:*

Terraform, AWS, Kubernetes.

EDUCATION AND CERTIFICATIONS

BSc in Computer Science, Warsaw University of Technology (2018) - Focused on software engineering and cloud technologies.

Certifications: AWS Certified DevOps Engineer - Professional
