

Clara Schneider

DevOps Engineer

Berlin, Germany | clara.schneider@example.com | +49 30 0000 0000 | linkedin.com/in/clara-schneider | github.com/clara-schneider | clara.devops

PROFILE

Experienced DevOps Engineer specializing in automating infrastructure and improving CI/CD pipelines. Passionate about enhancing system reliability and performance through modern DevOps practices.

SKILLS

Languages: Bash, Python, Go

Frameworks: Kubernetes, Jenkins, Ansible

Cloud and tools: AWS, Docker, Terraform

Databases: PostgreSQL, Cassandra

Practices: Continuous integration, Infrastructure as code, Monitoring and logging

EXPERIENCE

DevOps Engineer, Cloud Solutions Inc.

May 2020 - Present

Berlin, Germany

- Automated deployment processes, decreasing deployment time by 50%.
- Led migration of on-premise infrastructure to AWS, enhancing scalability and reliability.
- Implemented monitoring solutions that reduced system downtimes by 40% through proactive alerts.

Technologies: AWS, Docker, Kubernetes

System Administrator, Tech Dynamics

Feb 2018 - Apr 2020

Hamburg, Germany

- Managed Linux servers and optimized system performance, leading to a 30% reduction in latency.
- Configured and maintained a CI/CD pipeline using Jenkins for various software development projects.
- Provided technical support for development teams to enhance system reliability.

Technologies: Linux, Jenkins, Ansible

PROJECTS

Infrastructure as Code Implementation

Designed and implemented an infrastructure-as-code solution using Terraform, streamlining environment provisioning.

Technologies: Terraform, AWS.

Monitoring and Alerting System

Developed a comprehensive monitoring system using Prometheus and Grafana, enhancing system observability.

Technologies: Prometheus, Grafana.

EDUCATION AND CERTIFICATIONS

BSc Information Technology, Technical University of Berlin (2017)

Certifications: AWS Certified DevOps Engineer - Professional
