

Sofia González

Data Scientist

Mexico City, Mexico | sofia.gonzalez@example.com | +52 55 0000 0000 | linkedin.com/in/sofia-gonzalez | github.com/sofiagonzalez | sofiagonzalez.dev

PROFILE

Dedicated Data Scientist with 4 years of experience in machine learning and data analytics. Adept at transforming complex data into actionable insights and developing predictive models.

SKILLS

Languages: Python, R, SQL
Frameworks: TensorFlow, scikit-learn, Pandas
Cloud and tools: AWS, Google Cloud, Azure ML
Databases: PostgreSQL, MongoDB
Practices: Data Visualization, Statistical Analysis, Machine Learning

EXPERIENCE

Data Scientist, Data Insights Corp. Jan 2021 - Present
Mexico City, Mexico

- Developed and deployed machine learning models that increased customer retention by 20%.
- Conducted data analysis on large datasets, providing insights that shaped marketing strategies.
- Collaborated with cross-functional teams to build data-driven solutions, enhancing operational efficiency.

Technologies: Python, TensorFlow, SQL

Junior Data Analyst, Tech Analytics May 2018 - Dec 2020
Mexico City, Mexico

- Analyzed sales data to identify trends and presented findings to senior management.
- Created dashboards and reports that improved decision-making processes.
- Assisted in cleaning and preprocessing data for various projects.

Technologies: SQL, Tableau, Excel

PROJECTS

Customer Segmentation Model
Developed a machine learning model to segment customers based on purchasing behavior, enhancing targeted marketing efforts. Technologies: Python, scikit-learn.

Sales Forecasting System
Designed a forecasting system for sales data that improved accuracy by 30%, aiding inventory management. Technologies: R, AWS, Pandas.

EDUCATION AND CERTIFICATIONS

MSc Data Science, National Autonomous University of Mexico (2018) - Thesis on predictive modeling

Certifications: Certified Data Scientist
