

Sofia Kristensen

DevOps Engineer

Oslo, Norway | sofia.kristensen@example.com | +47 900 00 000 | linkedin.com/in/sofia-kristensen | github.com/sofia-kristensen | sofia.kristensen.dev

PROFILE

Motivated DevOps Engineer with over 5 years of experience implementing CI/CD pipelines and automating infrastructure using cloud technologies. Passionate about enhancing operational efficiency and driving continuous improvement.

SKILLS

Languages: Bash, Python, Go

Frameworks: Docker, Kubernetes, Ansible

Cloud and tools: AWS, Azure DevOps, GCP

Databases: MySQL, PostgreSQL

Practices: Infrastructure as Code, Continuous Deployment, Monitoring and Logging

EXPERIENCE

DevOps Engineer, Cloud Solutions AS

Feb 2019 - Present

Oslo, Norway

- Implemented CI/CD pipelines using Jenkins and GitLab, reducing deployment times by 40%.
- Automated infrastructure provisioning with Terraform, enabling rapid scaling of applications.
- Enhanced system reliability by implementing comprehensive monitoring systems with Prometheus and Grafana.

Technologies: AWS, Terraform, Docker

Systems Administrator, Tech Global

Jun 2016 - Jan 2019

Stavanger, Norway

- Managed on-premise and cloud-based servers, ensuring 99.9% uptime.
- Performed regular system audits and security assessments to mitigate vulnerabilities.
- Provided technical support and training for internal teams to improve system usage and efficiency.

Technologies: Linux, MySQL, Ansible

PROJECTS

Automated Deployment System

Developed a fully automated deployment system that reduced manual intervention and improved deployment success rates to 98%. Technologies: Jenkins, Docker.

Infrastructure Monitoring Dashboard

Created a real-time infrastructure monitoring dashboard for better visibility into system performance and alerting. Technologies: Grafana, Prometheus.

EDUCATION AND CERTIFICATIONS

BSc Information Technology, University of Oslo (2016) - Specialized in system administration and cloud computing.

Certifications: AWS Certified DevOps Engineer – Professional
