

Nina Ivanov

DevOps Engineer

Sofia, Bulgaria | nina.ivanov@example.com | +359 88 000 0000 | linkedin.com/in/nina-ivanov | github.com/nina-ivanov | nina-ivanov.dev

PROFILE

Passionate DevOps Engineer with 7 years of experience in automating and optimizing mission-critical deployments in cloud environments. Expert in CI/CD implementation and system monitoring.

SKILLS

Languages: Python, Ruby, Shell

Frameworks: Ansible, Kubernetes, Terraform

Cloud and tools: AWS, Azure, Google Cloud

Databases: MySQL, PostgreSQL

Practices: Continuous integration, Infrastructure as code, Monitoring and logging

EXPERIENCE

DevOps Engineer, CloudOps Innovations

Mar 2021 - Present

Sofia, Bulgaria

- Implemented CI/CD pipelines that reduced deployment times by 50%.
- Automated infrastructure provisioning and management using Terraform, improving scalability.
- Enhanced system monitoring and logging, increasing incident response efficiency by 30%.

Technologies: AWS, Ansible, Kubernetes

Systems Administrator, TechFusion

Jan 2016 - Feb 2021

Sofia, Bulgaria

- Managed and maintained cloud environments, ensuring 99.9% uptime through proactive monitoring.
- Developed scripts to automate routine tasks, reducing operational costs by 20%.
- Collaborated with development teams to enhance application deployment processes.

Technologies: Linux, Shell, MySQL

PROJECTS

Cloud Infrastructure Automation

Designed and implemented a fully automated cloud infrastructure using Terraform, resulting in significant time savings and improved resource utilization. Technologies: AWS, Terraform, Ansible.

Monitoring Dashboard

Developed a centralized monitoring dashboard that provides real-time insights into system performance and health, improving response times to outages. Technologies: Grafana, Prometheus, Python.

EDUCATION AND CERTIFICATIONS

MSc Information Systems, Sofia University (2015) - Specialization in cloud computing and DevOps practices.

Certifications: AWS Certified DevOps Engineer - Professional
