

Liam Fitzgerald

DevOps Engineer

Dublin, Ireland | liam.fitzgerald@example.com | +353 1 700 0000 | linkedin.com/in/liam-fitzgerald | github.com/liam-fitzgerald | liam-fitzgerald.dev

PROFILE

DevOps Engineer with over 6 years of experience in automating deployment processes and optimizing cloud infrastructure. Adept at fostering collaboration between development and operations teams.

SKILLS

Languages: Shell, Python, Go

Frameworks: Kubernetes, Ansible, Terraform

Cloud and tools: AWS, Azure, GCP

Databases: MySQL, MongoDB

Practices: Infrastructure as Code, CI/CD pipelines, Monitoring and logging

EXPERIENCE

DevOps Engineer, Cloud Innovators

Aug 2019 - Present

Dublin, Ireland

- Automated deployment processes, reducing deployment time by 60%.
- Implemented CI/CD pipelines that increased deployment frequency by 30%.
- Collaborated with development teams to improve application performance and reliability.

Technologies: AWS, Terraform, Docker

Systems Administrator, TechStream Solutions

Jan 2017 - Jul 2019

Dublin, Ireland

- Managed IT infrastructure, ensuring uptime of 99.9%.
- Monitored system performance and implemented optimizations.
- Provided technical support to development teams to resolve issues quickly.

Technologies: Linux, Ansible, MySQL

PROJECTS

Infrastructure Automation Project

Led a project to automate infrastructure provisioning using Terraform, significantly reducing manual effort and errors.

Technologies: Terraform, AWS.

Application Performance Monitoring

Implemented a monitoring solution that provided real-time insights into application performance, leading to a 40% reduction in downtime. *Technologies: Prometheus, Grafana.*

EDUCATION AND CERTIFICATIONS

BSc in Information Technology, Trinity College Dublin (2016) - Focus on systems administration and cloud computing.

Certifications: AWS Certified DevOps Engineer - Professional
