

# Yara El-Amin

## DevOps Engineer

Cairo, Egypt | yara.elamin@example.com | +20 1000 00000 | linkedin.com/in/yara-el-amin | github.com/yaraelamin | yaraelamin.dev

### PROFILE

Result-driven DevOps Engineer with over 6 years of experience in CI/CD, configuration management, and cloud infrastructure. Committed to automating processes and improving deployment frequency.

### SKILLS

**Languages:** Bash, Python, Groovy

**Frameworks:** Jenkins, Terraform, Ansible

**Cloud and tools:** AWS, Azure, Google Cloud

**Databases:** MySQL, SQLite

**Practices:** Continuous Integration, Infrastructure as Code, Monitoring

### EXPERIENCE

#### DevOps Engineer, CloudTech Solutions

May 2021 - Present

Cairo, Egypt

- Automated deployment processes using Jenkins, reducing deployment times by 70%.
- Implemented Infrastructure as Code using Terraform, improving resource allocation efficiency.
- Monitored system performance and uptime, achieving 99.9% availability.

*Technologies: AWS, Terraform, Jenkins*

#### Junior DevOps Engineer, Innovative Systems

Aug 2018 - Apr 2021

Cairo, Egypt

- Supported the migration to cloud environments, enhancing scalability and flexibility.
- Developed scripts for automated backups and system monitoring.
- Participated in troubleshooting and resolving system issues in a timely manner.

*Technologies: Ansible, Azure, MySQL*

### PROJECTS

#### Automated Deployment Pipeline

Designed a fully automated CI/CD pipeline that facilitated faster and more reliable software releases. Technologies: Jenkins, Docker.

#### Monitoring Dashboard

Created a monitoring dashboard for real-time visibility into system health and performance, leading to quicker issue resolution. Technologies: Grafana, Prometheus.

### EDUCATION AND CERTIFICATIONS

BSc Information Technology, Cairo University (2017) - Focused on systems administration and network security.

Certifications: Certified Kubernetes Administrator
