

Santiago Castillo

Data Scientist

Buenos Aires, Argentina | santiago.castillo@example.com | +54 9 11 2345 6789 | linkedin.com/in/santiago-castillo | github.com/santiago-castillo | santiago-castillo.dev

PROFILE

Analytical Data Scientist with over 4 years of experience in applying machine learning models to solve business challenges. Passionate about data-driven decision making and predictive analytics.

SKILLS

Languages: Python, R, SQL

Frameworks: TensorFlow, scikit-learn, Pandas

Cloud and tools: AWS, Google Cloud, Azure

Databases: MySQL, PostgreSQL

Practices: Machine Learning, Data Visualization, Statistical Analysis

EXPERIENCE

Data Scientist, Data Solutions Group

Mar 2019 - Present

Buenos Aires, Argentina

- Developed predictive models to enhance customer retention, increasing retention rates by 15%.
- Analyzed large datasets to provide actionable insights for marketing campaigns.
- Collaborated with cross-functional teams to deploy machine learning models in production.

Technologies: Python, AWS, MySQL

Junior Data Analyst, Innovative Analytics Co.

Jan 2017 - Feb 2019

Buenos Aires, Argentina

- Conducted data cleaning and preprocessing to streamline analysis processes.
- Visualized data insights using Tableau, improving stakeholder decision-making.
- Assisted in the development of reports and dashboards for client projects.

Technologies: R, Tableau, SQL

PROJECTS

Customer Segmentation

Implemented clustering algorithms to segment customers based on purchasing behavior, optimizing marketing efforts.

Technologies: Python, scikit-learn.

Sales Forecasting Model

Built a time series forecasting model to predict sales, leading to a 20% increase in inventory efficiency. *Technologies: R, TensorFlow.*

EDUCATION AND CERTIFICATIONS

MSc in Data Science, Universidad de Buenos Aires (2018)

Certifications: AWS Certified Data Analytics - Specialty
